

Taxicab Rates

Rates are set according to the meter rate, minimum fare or quoted flat rate negotiated with the driver if lower than meter. The driver will run the meter for each trip. If the meter reads less than \$15.00 at the end of the trip, the minimum fare of \$15.00 will be charged plus a \$1.00 airport surcharge. Taxicab fares stated for the listed destinations are estimates only. The actual fare charged will be the meter amount or minimum fare plus a \$1 airport surcharge.
